This is a summary of information obtained from a review of all references to the subject contained in Bureau files except main file references. All references containing data identical or probably identical with the subject have been included except those listed at the end of this summary as not being reviewed. No interpretation or alteration of the facts set forth in the original material has been made except as set forth in footnotes.

It will be noted that the serial number of each reference is contained in a "source lock," setting forth in brief language, a description of the serial and the original source of the information reported therein. The number appearing in parentheses beneath each source lock is the page number of the source which that reference is listed. The term "SI" preceding a reference indicates that the serial so designated contains the same information as the foregoing serial. Unless there is a statement to the contrary, such information was obtained from the same source.

Information from outside agencies has been given a security classification, the same as the incoming communication. Information taken from mail originating within the Bureau and its field offices has not been classified regardless of whether the original communication shows a security classification.

THIS SUMMARY WAS PREPARED FOR USE AT THE BUREAU OF CONSPIRACY AND A MAY CONTAIN INFORMATION OF A SECRET NATURE.

13 The "Bulletin of the Atomic Scientists" for September,
14 1947 contained an article on page 235, entitled "Statements on
15 the Second Anniversary of Hiroshima." A brief introduction
16 preceeded the article stating that the Bulletin wrote to out-
17 standing scientists and opinion leaders asking the question
18 "Where do we stand two years after Hiroshima?" The article
19 consisted of replies received in answer to the question. It
20 included a joint statement released by Professor Einstein and
21 the Federation of Atomic Scientists on July 16, 1947. The
22 statement reported that their thesis was that there must be one
23 world or none. To this end they advocated the establishment of
24 international control of atomic energy and all weapons of mass
25 destruction. They also believed that the United Nations was
26 more important than ever.

27
28 Identifying information in this reference regarding
29 Einstein and the Bulletin appears in 100-350064-9 which is
30 summarized elsewhere in this memorandum.

[REDACTED] advised that in 1940,
[REDACTED] was considered second only to Einstein as
a mathematical analyst.

The "Bulletin of Atomic Scientists" for August, 1947,
Volume 3, Number 8, page 221 concerned an article of Louis Ridenour
regarding "Military Support of American Science, A Danger?".
According to the magazine Ridenour took the attitude that military
support of American science need be no danger to American science.
Albert Einstein and Dr. Norbert Wiener in another article made
replies to Ridenour's article.

10-29-48 Boston report.

11
12 The "Bulletin of the Atomic Scientists" for August
13 1947 published an article by Louis N. Ridenour entitled
14 "Military Support of American Science, a Danger?" and a reply
15 to this article by Albert Einstein.
16

17 The following comments regarding the above articles
18 appeared in the summaries accompanying the Bulletin at the time
19 it was forwarded to the Bureau.
20

21 "Ridenour takes the attitude that military support
22 of American science need be no danger to American science."
23

24 In replying to the article Einstein made the follow-
25 ing points:
26

- 27 "(1) The military should not be the agency to
28 distribute United States funds to institutions
29 for learning and research.
30 "(2) United States foreign policy has tended to
31 place too much emphasis on non-human factors.
32 This indicates a military mentality.
33 "(3) Sacrifice of citizen's rights and political
34 witch hunting results.
35 "(4) Supra-national foundations are needed for
36 security."
37

38 The Bulletin was published monthly by the Atomic
39 Scientists of Chicago, 1126 East 59th Street, Chicago 37,
40 Illinois. It was supported by a grant from the Emergency Committee
41 of Atomic Scientists. Albert Einstein was listed as Chairman
42 of this Committee.

10
11
12 On April 2, 1942 [REDACTED] was arrested by officers
13 of the State of California, and charged with being a member and
14 leader of a subversive organization; namely, the Friends of Progress,
15 which failed to register with the Secretary of the State of
16 California.

17
18
19 [REDACTED] advised that he was one of the prosecuting attorneys
20 in the trial of [REDACTED] and others of the governing board of the
21 "Friends of Progress". [REDACTED] advised that [REDACTED] connection with
22 Germany was shown by documentary evidence of his activities in various
23 German organizations. Exhibit L-33 of these documents was a letter
24 to the "Evening News", Los Angeles, California dated August 8, 1947,
25 in which [REDACTED] wrote that Hitler was considered by some Americans
26 as a most tyrannical dictator. He said that freedom of speech,
27 of press and conscience had not been taken from German citizens, and
28 that this was merely propaganda by some Americans. He also stated
29 there was no filthy or cruel concentration camps in Germany, and that
30 such stories were spread by paid propagandists and that no writer or
31 scientist of note had been expelled. As reference was made to one
32 Albert Einstein, [REDACTED] reminded his readers that leading American
33 organizations objected to his entry into this country because of his
34 Communist leanings .

The personal history of [REDACTED] as contained in the 1946 edition of "Current Biography" stated that [REDACTED] was one of several scientists who, in May, 1946 "joined Professor Albert Einstein in forming the Emergency Committee of Atomic Scientists, which hoped to 'help arouse the world to its danger'".

An article, which appeared in the New York "Herald Tribune" of August 13, 1946, date-lined at Trenton, New Jersey on August 12, 1947, concerning the Emergency Committee of Atomic Scientists, Incorporated, set forth the following information:

"Dr. Albert Einstein and a group of scientists associated with the production of the atomic bomb, filed papers of incorporation here today as the Emergency Committee of Atomic Scientists, Incorporated. Its purpose, as stated in a contemplated charter, will be to advance the peace time uses of atomic energy and to 'diffuse knowledge and information about atomic energy and to promote the general understanding of its consequences to society and to the people of the United States in order that an informed citizenry may intelligently determine its policy and shape its action to serve its own and mankind's best interest'".

(page 29)

The home of Dr. Einstein, 112 Mercer Street, Princeton, New Jersey, was listed as the corporation's headquarters. Co-trustees were listed as Dr. Edward U. Condon, head of the Bureau of Standards in Washington, D.C.; Dr. Victor L. Weisskopf of MIT; Dr. F. Peacher and Dr. Hansa Bethe of Cornell University; Dr. Harold C. Urey, Dr. T. Hogness and Dr. Leo Sillard of the University of Chicago.

The "Daily Worker" of August 12, 1947, carried an article entitled "French Act to Bar Measles Spread Among Refugee Kids". This article stated in part that French health authorities took precautionary measures on the previous day to prevent an epidemic of measles among children of the Jewish refugees aboard three British transports off the coast of France.

This article stated further that on the previous day forty prominent Americans commended the French Government for its "benevolent manner" in dealing with the refugees; further that a telegram to French Ambassador Henri Bonnet declared "It was in the richest traditions of the nation that gave to the world the democratic ideals of liberty, equality and fraternity, that homeless and dispirited wanderers were given such care and noble treatment". The article stated further that the signers of this telegram included Professor Albert Einstein and thirty-six other individuals.

On [REDACTED] furnished to the Bureau a copy of a typewritten list bearing the names of approximately forty American scientists and the names of the universities to which they were attached. The reading of the list indicated that many of them had been publicly reported to have worked on the atomic bomb project. The name of Albert Einstein, Institute for Advanced Study, Princeton, New Jersey, appeared on this list.

12 A letter, dated September 2, 1947, was received by
13 the Bureau from [REDACTED]. The letter bore the head-
14 ing of the Association of Scientists For Atomic Education,
15 Room 523, 625 Madison Avenue, New York City and a list of the
16 Board of Directors, Officers and Trustees. From this list,
17 [REDACTED]

18 [REDACTED] In addition, Albert Einstein was listed as a
19 trustee.

20 b7c [REDACTED] alleged that the Bureau investigated a recent
21 discussion meeting at Georgetown, South Carolina, led by [REDACTED]
22 [REDACTED] a member of the above-mentioned association from Oak Ridge,
23 Tennessee.
24
25

26 A reply to the above letter was forwarded by memo to
27 Mr. D. M. Ladd from V. F. Keay, dated September 8, 1947. This
28 memo pointed out that the Association of Scientists for Atomic
29 Education was founded in December, 1946 to handle educational
30 activities for the Federation of American Scientists (FAS) and
31 to receive funds from the Emergency Committee of Atomic Scientists,
32 headed by Albert Einstein.

[REDACTED] furnished a report, dated [REDACTED] Los Angeles, California, concerning the "Action for Palestine" meeting held at the Hollywood Bowl, Hollywood, California on September 22, 1946. The meeting was sponsored by the Los Angeles Jewish Emergency Council and Justice for Palestine Committee. During the program the voice of Albert Einstein was brought to the meeting by means of a record. Being unable to attend, he expressed his regrets and trusted that the United Nations would take over and give Palestine to the Jews.

A highly confidential source on October 5, 1947, furnished a printed letterhead of the Detroit Jewish Committee to Aid Russian Rehabilitation, Incorporated, to the Detroit Office. This letterhead reflected that honorary chairmen of this organization were Rabbi Stephen S. Wise and Professor Albert Einstein.

14 In May of 1948, the Bureau files reflected that
15 Albert Einstein, Chairman, and [REDACTED]
16 [REDACTED] for the Emergency Committee of Atomic
17 Scientists, Incorporated, Room 28, 90 Nassau Street, Prince-
18 ton, New Jersey, signed a letter dated October 11, 1947, to
19 Secretary of State George C. Marshall. This communication
20 enclosed a copy of a letter written by [REDACTED] to Premier
21 Stalin of Russia. The letter to Secretary of State Marshall
22 b7C requested authority for [REDACTED] to transmit the enclosed
23 letter to Stalin through channels chosen by [REDACTED]. The
24 letter to Stalin in general mentioned the deterioration of
25 relations between the United States and Russia and the drift
26 towards war. It suggested that Stalin start broadcasting
27 direct to the American people outlining his basic ideas for
28 the reconstruction of the post war world and that a series
29 of meetings of leading scientists and citizens of the world
30 be held to iron out existing difficulties.

12 The reference indicated in the block below is a
13 mimeographed letter dated October 11, 1947, on the letterhead
14 of the Emergency Committee of Atomic Scientists, Incorporated,
15 located at Room 28, 90 Nassau Street, Princeton, New Jersey,
16 and signed by A. Einstein.

17
18 The letter was disseminated in soliciting funds for
19 the committee to help in its "campaign of education to ensure
20 that Atomic Energy will be used for the benefit of mankind
21 and not for humanity's destruction".
22

23 Attached to the above-mentioned letter was a leaflet
24 entitled "The Last Hour Before Midnight" issued by the Emergency
25 Committee for Atomic Scientists which reflected Albert Einstein
26 as Chairman of the Committee and Harold C. Urey as Vice-
27 Chairman.

At 7:35 PM on November 3, 1947 a Washington Field Office agent called the Bureau and stated that he had received a telephone call from the Atomic Energy Commission telephone operator who advised him that she had received a telephone call at 6:25 PM from an individual who gave his name as [REDACTED]

[REDACTED] stated that he was calling from New York regarding his formula Y4-X. He desired to have his call referred to [REDACTED]. At 6:30 PM the operator at the Atomic Energy Commission received another call from the same individual who claimed this time to be calling from Columbus, Ohio. This time he desired that his call be referred to Professor Einstein at Princeton University, Princeton, New Jersey. This time he said that he wanted to speak to Professor Einstein regarding nuclear energy control.

The Atomic Energy Commission operator advised the agent that she had learned the call was actually from University 0138, Columbus, Ohio. The telephone company operator handling the calls advised the Atomic Energy Commission operator that just prior to handling these calls she also received a request to place a call to Professor Einstein at Princeton, New Jersey.

15 The following is quoted from an article entitled
16 "The Atom Bomb Madness" which appeared on page 9 of the
17 November 7, 1947, issue of the "Daily Worker";

18
19 "Soviet Foreign Minister Molotov struck a strong
20 blow for peace with his announcement that for the Soviet Union
21 there was no longer any secrets concerning the atom bomb.

22
23 "At the same time, he emphatically repeated what
24 Stalin had told Harold Stassen and others, that there can
25 be peaceful collaborations between the capitalist U. S. A.
26 and the Socialist USSR.

27
28 "With this world-important statement, the Soviet
29 leader confirms what many atom scientists in this country have
30 been trying vainly to drum into the heads of certain power-
31 crazy 'brass hats' and profit-hungry banker-diplomats in the
32 State Department.

33
34 "That is, that there could not be any atom bomb
35 monopoly for a long time.

36
37 "The newspapers have been kidding the public with
38 the notion it's ok to 'get tough' with the rest of the world
39 because we alone have the atomic bomb.

40
41 "They have been rousing a war spirit with the stated,
42 or implied, falsehood that an atomic war would be a one-way
43 street, quickly ended, with little danger to us.

44
45 "As against this war-breeding clique, peace-loving
46 Americans of all political views -- whether a Henry Wallace,
47 an Einstein, or the Communist Party -- have been warned that
48 atomic bomb diplomacy was leading our nation into a trap for
49 which the American people and the world would pay a heavy price
50 in sufferings and death.

12 A review of the New York Field Division files dis-
13 closed that the Emergency Committee of Atomic Scientists
14 was located at 625 Madison Avenue, New York City. It was com-
15 prised of a group of scientists who were interested in atomic
16 energy and was headed by Albert Einstein and some prominent
17 American physicists. Some Communist sympathizers were associated
18 with the organization which was not, however, under the control
19 or influence of pro-Communist or pro-Russian elements.

13 In the January 1948 issue of the "Bulletin of the
14 Atomic Scientists" on page 1 appeared an article entitled
15 "A Plea for International Understanding" by Albert Einstein.
16 This article was a reprinting of Einstein's remarks addressed
17 to the members of the Foreign Press Association to the United
18 Nations on November 11, 1947, in accepting the Association's
19 award as chairman of the Emergency Committee of Atomic Scientists.
20 The award was given "in recognition of his valiant effort to
21 make the world's nations understand the need of outlawing
22 atomic energy as a means of war, and of developing it as an
23 instrument of peace."

24
25 According to the review of this article submitted
26 along with the Bulletin, Einstein made the following statements:
27

- 28 "(1) Man's problem, the atomic bomb, is man-made.
29 "(2) Intelligent, objective and humane thinking is
30 even persecuted as unpatriotic.
31 "(3) People of sound judgment and sense of justice
32 in opposite camps could work out a solution,
33 but there is a forced separation of such people
34 in both camps.
35 "(4) There is little chance for agreement where
36 contact is limited to official negotiation.
37 "(5) Scientists consider it their task to work for
38 understanding and ultimate agreement."

39
40 Identifying information in this reference regarding
41 Einstein and the Bulletin appears in 100-350064-9 which is
42 summarized elsewhere in this memorandum.

reported that on November 11, 1947, the American Birobidjan Committee held its annual national dinner at the Waldorf-Astoria Hotel, New York City. The informant advised that the dinner was attended by approximately 800 people and that speakers included Max Levine, Chairman of the Board of Directors, New York City Councilman Stanley Isaacs, Professor Elias A. Lowe of Princeton University, Dr. Raymond Walsh, Radio Commentator and Economist, and Senator Alben W. Barkley.

The Informant stated that Professor Lowe, who had just returned from Europe on a mission of the State Department, stated that the talk that Europe was going under was nonsense. Professor Lowe continued that conditions were very hard, that there was not enough to eat, that a remarkable rebuilding was going on and that we must aid Europe. He declared that he brought a message from Professor Albert Einstein. In the message, Einstein endorsed the activities of the American Birobidjan Committee, especially its work on behalf of the war orphans in Stalingrad and Birobidjan, and also the committee's campaign for sending out prefabricated houses to Birobidjan.

18 The November 20, 1947 issue of the "Peoples
19 Daily World" carried on page 5 a review of the book en-
20 titled "The Scientists Speak" which was edited by Warren
21 Weaver and published by Boni and Gaer. The review was
22 written by one Clint Smith at San Francisco. According
23 to the review, the book contained reprints of 87 12
24 minute talks given by 81 leading American research
25 workers during intermissions at the New York Philharmonic
26 Symphony broadcasts during the preceding two years. The
27 review stated further that most of the authors of the
28 volume scrupulously avoided any comments about the po-
29 litical or economic consequences of their work, but
30 added that a few top men, such as Albert Einstein, J.
31 Robert Oppenheimer and Harold Urey had ventured to
32 point out "the common peril" which humanity faced in
33 this atomic age.

The Bureau advised by letter dated December 17, 1946, that no information of value was obtained from a check of the Bureau's files relative to the above-mentioned names.

Re letter dated November 1, 1946, the Baltimore Division advised that it was ascertained that Dr. Albert Einstein and Miss Helen Dukas, his secretary, were guests at Frank Wilson's, 1111 North Howard Street, at his home located near the lake. Dr. Einstein arrived at his home on October 10, 1946.

The Baltimore letter advised further that the "Cumberland Evening Times", Cumberland, Maryland, carried the following news item on September 22, 1946:

"Einstein party arrives at lake - Dr. Albert Einstein, world famous scientist, arrived at Deep Creek lake in Garrett County last evening to spend a short vacation at the home of Dr. and Mrs. Frank M. Wilson, of Cumberland. Dr. Einstein and his party of four plan to occupy 'Mar-Jo', the Wilson home in the Turkey Neck Section of the lake for a week or ten days, according to acquaintances arranged for the scientist to visit western Maryland.

"The party made the trip from Princeton, New Jersey, to the lake by automobile, arriving about 2 p.m., yesterday."

The Baltimore letter stated further that in the "Albany Mirror" for October 10, 1946, a publication of the Albany High School, Cumberland, Maryland, there was an article regarding an interview of "Albany Mirror" reporters with Dr. Einstein on Sunday, October 6, 1946. This article stated that Dr. Einstein was accompanied on his vacation trip

2

9
10
11
12
13
14
15
16 by his secretary, Miss Helen Dukas, and by Dr. and Mrs. Gustav
17 Bucky. Dr. Bucky was described as a world famous radiologist
18 who came to America in 1922. His wife, Mrs. Frida Bucky,
19 was described as an author of note, having written several
20 books. It was stated that Dr. Mark Plungian, author of several
21 books in the chemical field, who was then doing research work
22 at the Celanese Corporation at Cumberland, Maryland, was also
23 in the group of celebrities at the lake.
24

25 This article stated further that Dr. Plungian,
26 wife of Dr. Mark Plungian, had played a very important role
27 in bringing the group to western Maryland. It was stated that
28 Mrs. Plungian had been working for some time on a bust of
29 Dr. Einstein, and a short time previously had realized that she
30 was going to need something on which to mount her work of art.
31 Dr. Plungian made some remarks along this line among his
32 friends and fellow workers in the laboratories at the Celanese
33 Plant, and one John B. Steiding, offered to build a pedestal
34 of choice wood and submit it for just such a purpose, according
35 to the paper.
36

37 It was stated further that the pedestal had been
38 constructed and an invitation was extended to Dr. Einstein to
39 come to "the woodlands of Maryland sometime for real rest and
40 relaxation. His secretary promptly replied that they would get
41 a party together at once and would drive to Cumberland, Septem-
42 ber 21."
43

44 The Baltimore letter noted that neither of the
45 above-mentioned newspaper articles referred to any past ac-
46 quaintance or association between Dr. Einstein or Helen Dukas,
47 and their host, Dr. Wilson. It was further noted that Dr.
48 Frank M. Wilson was a prominent physician and surgeon, whose
49 home was at 604 Washington Street, Cumberland, Maryland.
50

51 On November 10, 1947, [REDACTED]
52 at Princeton, New Jersey, advised that [REDACTED] 67C
53 at Albert Einstein's residence at 112 Mercer Street, Princeton,
54 New Jersey. [REDACTED]

15 This reference contained a pamphlet entitled "Atomic
16 War or Peace" by Albert Einstein as told to Raymond Swing.

17
18 On the front cover of this pamphlet, it was stated
19 that the pamphlet was reprinted by permission of the editors
20 of "The Atlantic Monthly" and made available to his friends
21 by the Emergency Committee of Atomic Scientists. The inside
22 cover of this pamphlet set out a list of the trustees of the
23 Emergency Committee of Atomic Scientists, Incorporated, 90
24 Nassau Street, Princeton, New Jersey, one of whom was Albert
25 Einstein, Chairman, Institute for Advanced Study, Princeton,
26 New Jersey.

27
28 Also included in this reference were two letters
29 dated January 10, 1948, and November 25, 1947, on the letter-
30 head of the Emergency Committee of Atomic Scientists which
31 were addressed, "Dear Friends" and signed A. Einstein.

32
33 This reference also contained a statement by the
34 Emergency Committee of Atomic Scientists which set out in
35 numerical order six facts which were accepted by all atomic
36 scientists. This statement was an appeal for contributions
37 toward the \$1,000,000 fund of the Emergency Committee of
38 Atomic Scientists, Incorporated, 90 Nassau Street, Princeton,
39 New Jersey, of which Albert Einstein was chairman. This
40 statement contained a form at the bottom of the page which was
41 to be filled out and returned to the Emergency Committee of
42 Atomic Scientists with gift. A business reply envelope was
43 also attached addressed to the Emergency Committee of Atomic
44 Scientists, 90 Nassau Street, Princeton, New Jersey.

45
46 The name of Albert Einstein also appeared on the
47 letterhead of the above-mentioned letters as a trustee of the
48 Emergency Committee of Atomic Scientists.

X

[REDACTED]

A review of the Los Angeles indices indicated that the Emergency Committee of Atomic Scientists, Incorporated, was an organization for education on social implication of atomic energy. Among those persons connected with the organization were Albert Einstein, Professor Harold C. Urey, University of Chicago, Hans A. Bethe of Cornell University, and Linus Pauling of the California Institute of Technology.

11
12 With a report dated August 1, 1950, the Washington
13 Field Office enclosed a letter from the American Embassy,
14 Ottawa, Canada, dated December 11, 1947, to the Honorable,
15 the Secretary of State, Washington, D.C., and signed by
16 Ray Atherton. Enclosed with this letter was a copy of a
17 recorded talk given by Dr. Jerome Davis, over several radio
18 stations of the Canadian Broadcasting Corporation on December
19 6, 1947.
20

21 The following is quoted from the above-referred to
22 radio talk: "Following the war, Russia today spends far
23 less on military appropriation than the United States. America
24 has a navy larger than all the navies of the world combined,
25 the best long range bombers in the world and exclusive secret
26 of the atomic bomb. Russia has been devastated over as large
27 an area as all Europe; she has almost no navy, very few long
28 range bombers, and no atomic bombs. Again the United States
29 has been bullheaded about the atomic bomb. She did not need
30 to destroy her bombs but at least she might have accepted
31 the Soviet proposal to outlaw their use. As Albert Einstein
32 has said in burning words, 'in refusing to outlaw the bomb
33 while having the monopoly of it, the United States is making
34 a political purpose of the possession. This is hardly
35 pardonable.' Think of it, Albert Einstein says that America's
36 refusal to outlaw the atomic bomb is inexcusable."

11
12 On December 11, 1947, the Department of State
13 furnished the Bureau with a mimeographed letter dated
14 November 21, 1947, on the letterhead of the Emergency
15 Committee of Atomic Scientists and signed by A. Einstein,
16 Chairman of the Committee.

17
18 The letter solicited contributions for the
19 Committee in order that it might carry on a program of
20 education which would bring to the citizenry of the
21 country the facts about atomic energy and its social
22 implications.

23
24 Enclosure with the above letter was a pamphlet
25 entitled "Atomic War Peace" by Albert Einstein which was
26 a reprint from the "Atlantic Monthly."

27
28 According to the letter, the pamphlet set forth
29 Einstein's beliefs "as to the reasons for the stalemate
30 which confronts us today in the vitally important negotiations
31 on an international atomic energy control. It proposes
32 certain actions on the part of our people and our govern-
33 ment which I think would be helpful in lessening the
34 present tensions."

12 The "New York Daily Mirror" of August 17, 1950, con-
13 tained statements from Louis Budenz's book, "Men Without Faces",
14 and quoted him with respect to the Cultural and Scientific
15 Conference held at the Waldorf-Astoria Hotel, New York City,
16 March 25-27, 1949, as follows:
17

18 "Heading the list of those who sponsored and attended
19 the Waldorf-Astoria 'Peace' session were Thomas Mann and Albert
20 Einstein, neither a Communist. Mann is the novelist, long a
21 warm defender of Moscow.
22

23 "The relationships with Mann and Einstein were
24 established by what the Communists called 'remote control' while
25 I was still part of the Red leadership. The chain of communica-
26 tion with Mann ran through associates of his daughter Erika;
27 while with Einstein, means of reaching him were set up at Prince-
28 ton. In both instances, these men were persuaded to their pro-
29 Communist stands by playing on their hatred of Nazism. This I
30 know from what I heard said in Politburo meetings. No more
31 striking illustration could be found of the way well-known men
32 and women of unquestionable integrity are deceived and exploited
33 by the Communists."
34

35 An article appeared in the "Daily Worker" on December
36 17, 1947, discussing the filing of a petition to Attorney General
37 Tom Clark to discontinue deportations then pending against Eisler.
38 The article was entitled "Einstein, Mann Ask Clark To Stop Hans
39 Eisler Deportation." It was datelined Hollywood, California,
40 December 16, 1947.
41

42 Also in the book "Men Without Faces", pages 219-229,
43 Budenz described the Communist origin of the "National Council
44 of the Arts, Sciences and Professions, Inc."

[REDACTED] furnished information concerning the Annual National Dinner of the American Birobidjan Committee (Ambijan) which was held on November 11, 1947, at the Waldorf Astoria Hotel, New York City.

Informant advised that Professor Elias A. Lowe of Princeton University brought a message to the dinner from Professor Einstein endorsing the activities of Ambijan.

It was also reported that Dr. J. Raymond Walsh, radio commentator, in his talk at the dinner declared that any American should be proud to be on the same cause with Professor Albert Einstein.

The Ambijan Bulletin for January 1948, on page 1, contained a copy of the cable dated January 14, 1948, which was sent by Ambijan to the Jewish Anti-Fascist Committee in Moscow with expressions of condolence on the death of the head of their Committee in Russia. Albert Einstein, Honorary President (of Ambijan) was one of the signers of the message.

The Special Committee on Un-American Activities in its report of March 29, 1944, stated that the "American Committee For Emergency Aid to the Soviet Union" was a Communist front. It is to be noted that Ambijan was previously known by this title.

11 The Washington Post of January 19, 1948, carried an article
12 entitled "Emphasis on Military is Deplored". This article stated
13 that Professor Albert Einstein and twenty other "educators,
14 clergymen and prominent figures issued a warning that "America
15 cannot remain democratic if the present trend toward military control
16 of our institutions continues". These assertions were said to be made
17 in a booklet entitled "The Militarization of America", distributed by
18 the "National Council Against Conscription". The signers of the report
19 that were mentioned included [REDACTED]

12 On January 19, 1948, the "Daily Worker" carried an
13 article entitled "Einstein Mourns Death of Mikhoels." It re-
14 ported that Professor Albert Einstein and other Jewish leaders
15 dispatched a cable to the Jewish Anti-Fascist Committee in the
16 Soviet Union, expressing grief at the sudden death of Solomon
17 Mikhoels, chairman of the Committee. The cable was addressed
18 to Itzik Feffer and G. Helfts and was signed by Einstein and
19 fellow officers of the American Birobidjan Committee. Einstein
20 was honorary president of the organization.

18 The "Bulletin of the Atomic Scientists" of January 19,
19 1948, as published by the Atomic Scientists of Chicago con-
20 tained an article "A Pled for International Understanding"
21 by Albert Einstein which appeared on page 1. In the article,
22 Einstein stated that intelligent, objective and humane thinking
23 was even prosecuted as unpatriotic. This statement was made
24 in connection with his consideration of a solution of the
25 atomic energy problem.

14 The "New York Sun" of January 22, 1948, contained an
15 article captioned "Secret Plans Laid for Drive to Attack Thomas
16 Committee." The article reported that a new organization to be
17 known as the Committee of One Thousand was organized for the purpose
18 of persuading Congress to abolish the Thomas Committee on Un-
19 American Activities.

20
21 The article also stated that the organization's first
22 move at its headquarters in Washington, D. C. was to place a full-
23 page newspaper advertisement which called for donations. Among those
24 who signed the advertisement was Albert Einstein.

25
26 According to the article, telegrams had been sent to
27 prominent persons from the Century Club in New York asking them
28 to join the Committee of One Thousand in conducting a campaign to
29 eliminate the Thomas Committee. Einstein was on the list of persons
30 who received one of the above-mentioned telegrams.

14 The January 24, 1948, issue of the Washington "Times
15 Herald" contained an article captioned "Plan to Smear Red-Probers
16 Hit by Congressmen." by James Walter. The article reported that
17 Congressional leaders spoke out against the Committee of One
18 Thousand.

19
20 The article further stated that of the 21 sponsors of
21 the Committee of One Thousand, 20 were listed in the files of the
22 un-American activities group and 12 were members of groups
23 designated as subversive by the Attorney General. It also set
24 out a list of these sponsors as they appeared on a full-page
25 announcement published in the "Washington Post" (date not given),
26 urging abolishment of the House Committee. Albert Einstein's
27 name appeared on this list.

13 The February 1948 issue of the "Bulletin of the
14 Atomic Scientists" published an article on pages 34, 37 and
15 38 entitled "Open Letter to Dr. Einstein -- From Four Soviet
16 Scientists."

17
18 On pages 35, 36 and 37, there appeared an article
19 entitled "A Reply to the Soviet Scientists" by Albert Einstein.
20

21 The following is quoted in part from a summary sub-
22 mitted with the Bulletin:
23

24 "The letter is from the following Soviet scientists:
25 Sergei Vavilov, A. N. Frumkin, A. I. Loffe, N. N. Semyonov.
26

27 "There is a preface to this article to the effect
28 that the letter, criticizing Dr. Einstein's support of world
29 government, was first published in "The New Times," a Moscow
30 English language newspaper, on November 26, 1947. The signatories
31 are all scientists of international repute."
32

33 The following were the salient items of interest in
34 this article:
35

- 36
37
38
39
40
41
42
43
44
45
46
47
48

50
51
52
53
54
55
56
57
58
59
60
61
62
- "1. World government is the aim of Imperialists.
 - "2. Foreign Capitalists enslaved Tsarist Russia and fought against the revolutionary movement.
 - "3. World government would mean world domination by Capitalistic monopolies.
 - "4. World government discredits national sovereignty.
 - "5. Elections would be a farce in countries of bourgeois democracy.
 - "6. A world parliament would be a tool of the United States."

Salient points in Einstein's reply were as follows:

- "1. The letter of the Soviet scientists indicates a trend on their part toward almost unlimited isolationism.
- "2. A Socialist economy requires a management with adequate standards.
- "3. Capitalism will be unable to check unemployment and maintain a healthy balance between production and purchasing power.
- "4. The belief in Socialism as a solution rather than as a framework encourages fanatical intolerance.

- 
- "5. The danger of tyranny is greater where a government has power over all phases of a citizen's life.
- "6. It is surprising that the Russian scientists hold the view that states should exercise unlimited state sovereignty economically but not in international politics.
- "7. Arguments that the United States is making a puppet of the United Nations Assembly is mythology.
- "8. A free personal exchange of views among intellectuals could help the international situation.
- "9. The action of the Soviet Government with respect to atomic energy has made it difficult for people in the United States to oppose the "war mongers."
- "10. The United States seeks a genuine solution to the security program.
- "11. The veto power in the Security Council has been abused.
- "12. The United States loans to other countries, since they probably cannot be repaid, are potential weapons in power politics and represent a real danger.
- "13. The danger of annihilation faces all nations and justifies the idea of World Government."

Identifying information in this reference regarding Einstein and the Bulletin appears in 100-350064-9 which is summarized elsewhere in this memorandum.

12 The Bureau received an ONI report from the Chief of
13 Naval Intelligence dated February 10, 1948, entitled "Subversive
14 Trends of Current Interest". On page 1 of this report appeared
15 the heading "Committee of 1,000" Under this heading it was
16 stated that Dr. Harlow Shapley of Harvard University had an-
17 nounced plans to recruit 1,000 prominent Americans behind
18 their drive to abolish the House Un-American Committee as
19 "Betrayers of American ideals;" reportedly, this committee
20 was backed by such people as Albert Einstein, Archibald Mae-
21 leish and others; further that it was noteworthy that Archi-
22 bald Macleish was currently representing the United States in
23 a diplomatic capacity; that Einstein was one of the chief
24 proponents of the Soviet inspired propaganda of fear.

12 The following is quoted from NI summary dated February 10, 1948 at
13 Washington, D. C.:
14

15 "February 10, 1948, 6:00 p.m., C-523 - Coleman Rosenberger to Palmer
16 Weber. Coleman said George (Bender) is debating 'another joker' on NBC
17 tomorrow night on Is the Influence of the Military in American Government
18 Increasing. Coleman asked that Palmer think about this tonight and give
19 him any thoughts he has on it in the morning. Palmer suggested a document
20 that Albert Einstein put out and Coleman said he tried to get it today.
21 Palmer said 'they' have an office here in town and is called the National
22 Council for the Prevention of World War III. Coleman said he has Hanson
23 Baldwin's article in Harper's. Palmer said he thinks he'll see Coleman
24 tomorrow morning. Coleman said George is on television tonight on the Toll
25 Tax. Coleman said he is going over to Virginia Durr's to listen on their
26 'fine FCC instrument'. Coleman said the television was recorded in advance.
27 Palmer asked when the invitations went out and Coleman said they were
28 mostly received today but some of them may not get delivered until tomorrow.
29 Palmer said we are going to have to have a rush now, but time is getting
30 short, two weeks. Palmer said he would see Coleman about 10:30 in the
31 morning."

In the February 21, 1948 issue of the "German American," New York City, appeared an article on page 6, column 4 and 5, entitled "Militarism and Civilization from the 'Einstein Report'." The "Einstein Report" was a paper in which renowned American scientists, artists, intellectuals and other personages took their stand against the militarization of our country and in particular against Universal Military Training. This report was signed by Albert Einstein and twenty other outstanding personages.

On April 20, 1948, the Bureau received from the State Department through liaison channels a confidential report dated March 11, 1948, captioned "Information Control and Propaganda in Hungary, Roumania, Yugoslavia, and Bulgaria."

On page 7 of this report under the subheading "From Szabad Nep (Communist), February 8, 1948" appeared the following: "It is not just a coincidence that Einstein and the American scientists, among them Urey, the atomic physicist crowned with the Nobel Prize, are protesting against the increasing influence of military circles. 'Business Week', the official organ of the big capitalists, has admitted that as a result of government support, scientific research in this country has fallen almost completely under military control. Which means -- that in America it is possible to conduct research only on the instructions of the generals, exclusively in the interest of all Preparation for War. He who is unwilling to do this, is thrown out in the street and his place is filled -- with a flourish -- by some oak-leaf-wreathed Hitler scientist."

"The very foundations of liberty and culture are threatened in the United States and in England, and that is why Thomas Mann, Hepburn, Chaplin, Einstein, Urey and the elite of the bourgeois scientists, writers and artists are taking a stand against imperialists".

"The Washington Post" of March 20, 1948, carried an article entitled "U. S. Detains French Labor Leader Briefly". This article stated in part that Mrs. Irene Joliot-Curie, Nobel Prize winner and daughter of the discoverers of Radium, was released from Ellis Island on that day on the order of Attorney General Tom Clark.

This article stated further that the purpose of her visit was to lecture on behalf of Spanish Loyalist Refugees from the Franco-Regime who were then in France, according to Mrs. Joliot-Curie; further that she would buy equipment for her Paris laboratory and would see Dr. Albert Einstein.

This article stated further that in Paris, her husband, Frederic, a Communist, said Dr. Einstein was one of those who invited her to visit the United States.

The March 25, 1948 issue of the "Daily Worker" carried an article under the caption "Truman Out to Militarize Youth, Says Wallace Aid", which stated that Seymour Linfield, veterans director of the national Wallace for President Committee, told the Senate Armed Services Committee that day, that Truman and the Army were trying to "militarize" American youth and get universal military training passed by "artificially creating a crisis with Russia".

The article further stated that scientist Albert Einstein declared his opposition to the universal military training while atomic scientist Dr. Arthur H. Compton, President of the St. Louis University and Nobel Prize winner had endorsed it.

16 By letter dated August 9, 1950, the Department of
17 the Air Force, Washington, D.C., forwarded to the Bureau an
18 OSI report dated April 7, 1950, entitled [REDACTED]
19 T. Sgt, Air Force - 12127205Hq and Hq Sqd, 1500 AAF Transport
20 Wing Hickam Air Force Base, Territory of Hawaii" character
21 "Disaffection (Communist Matters)".

22 This report stated that on March 26, 1948, an Agent
23 of the OSI, US Air Force, reported that he interviewed a
24 Confidential Informant regarding [REDACTED] Informant was
25 referred to as code name of Able. The statement of Able stated
26 in part that Able had held a discussion with [REDACTED] earlier in
27 the day; that Communism and the Communist Party were the
28 general topics of discussion; that [REDACTED] claimed relationship
29 with a person named Leon Turo, Do Turo, De Taro, or De Taro.
30 (Able did not request [REDACTED] to spell this name). This statement
31 stated further that [REDACTED] stated that this person was fluent
32 in seven languages and worked for the FBI in the capacity of
33 interpreter, but was "fired" by the Director for using the
34 official files for personal gain; that this individual was then
35 hired for a particular job in Germany by President Roosevelt;
36 he worked in this field in Germany during the war and was
37 responsible for the Germans not comprising our atomic knowledge;
38 that this person introduced [REDACTED] to Professor Albert Einstein.

[REDACTED] furnished the Washington Field Office with a letter dated, April 1, 1948 from the Emergency Committee of Atomic Scientists which announced that a dinner in honor of Dr. Edward U. Condon was to be held in New York City on the 12th of April. The dinner was to be an expression of confidence in Dr. Condon and a protest against the attack of Congressman Thomas of the House Committee on Un-American Activities against Condon.

Financial proceeds of the dinner were to be used to strengthen the influence and circulation of the Bulletin of the Atomic Scientists. According to the letterhead of this letter, Albert Einstein was chairman of the Emergency Committee of Atomic Scientists Inc., 118 Nassau Street, Princeton, New Jersey.

Washington Field Office
memorandum dated April 2, 1948.

On April 2, 1948 [redacted] was interviewed at the New York Office at which time he named a group of individuals whom he believed were Soviet agents but had no proof. Among those named by [redacted] was [redacted] whom he stated held a high position in OWI in the United States in charge of the German desk. According to [redacted] was a member of the German Communist Party but had stated he had dropped his Communist Party membership. [redacted] stated that [redacted] was a relative of Albert Einstein and that [redacted] had seen him at an anti-Nazi rally in New Jersey at the time of a Hitler-Stalin pact.

11 "The German American," published in New York City, contained in
12 its April 7, 1948 issue, page 7, column 2, an article captioned "Albert
13 Einstein in Favor of Wallace Program." The article is as follows:
14

15 "If the 'Un-American Committee' throws its dirt at a scientist then
16 one can be sure that the entire country is presented with this by the
17 American press--set up in gigantic letters as the patriotic great deed of
18 this committee.
19

20 "If, however, a scientist of world renown, such as Albert Einstein
21 says or does something, which does not suit the rulers of our 'free' press,
22 then one can rest assured that this will be withheld from the American
23 people.
24

25 "Albert Einstein was one of the personages who read the manuscript
26 of Henry Wallace's next book which will be published on April 15 under the
27 title of 'Towards World Peace.' Einstein made the following observations
28 which were designated for publication: 'This book is just as clear,
29 respectable and unpretentious as its author. If one reads through it
30 carefully and without prejudice and quietly, one must agree with its
31 fundamental premises--at least I cannot consider it in any other way.'
32 In addition, Einstein compared Wallace with Roosevelt and Wilkie and he
33 described him as a man 'who can save us in the threatening internal and
34 foreign political situation'. "
35

The April 12, 1948, issue of the "Washington Post" carried an article under the caption "Negotiations with Moscow Urged by Atomic Scientists" which stated that leading atomic scientists, warning of "the total collapse of our traditional civilization," had urged the day before diplomatic negotiations between the United States and Russia "at the highest governmental levels."

The article stated that the Emergency Committee of Atomic Scientists headed by Dr. Albert Einstein, said "there are no serious negotiations going on anywhere in the world today between the United States and Russia."

The article further stated that the Committee had long advocated world government as the key to peace, and that Dr. Einstein said the day before that "partial world government -- without Russia -- might convince the Soviet Union that she cannot oppose it."

This article continued that Einstein said that a world federation might be based on the United Nations. He stated, however, that this would be a "quantum jump."

According to the article, the Committee said in a statement that without world government there might be a "preventive war," or a two bloc world with "eventual termination in war."

The "Daily Worker" of April 19, 1948, under the caption "To Remember Warsaw" carried the photographs of a delegation of the American Committee of Jewish Writers, Artists and Scientists giving Jozef Winiewicz, Polish Ambassador to the United States, a message from Albert Einstein on the occasion of unveiling the national monument of Jewish Fighters of the Warsaw Ghetto on that day in Warsaw. According to the article underneath the photograph, B. C. Goldberg was President and Joseph Trainin was Chairman of the committee, of which Einstein was the honorary President.

An article in the "Newark Evening News" of April 16, 1948, reflected that the Essex County Council of the Veterans of Foreign Wars had announced that they planned to hold a demonstration outside McKinley Junior High School, Newark, New Jersey, on Friday, April 23, 1948, when Representative Marcantonio would speak at a Wallace-For-President rally. The Wallace Committee, according to the newspaper, headed by James Moore, had directed a telegram to Public Safety Director Keenan, charging that the avowed purpose of the Veterans of Foreign Wars demonstration was to disrupt the peaceful meeting planned by the Tenth Congressional District Wallace-For-President Committee.

b2, b7D

[REDACTED]

The "Newark Evening News" of April 22, 1948, contained an article indicating that Governor Driscoll had been barraged with telegrams asking that the Veterans of Foreign Wars permit be cancelled. According to the article, a statement signed by Professor Albert Einstein and more than one hundred other New Jersey professors, ministers, lawyers, veterans, and other citizens was sent to Governor Driscoll.

13 In the May, 1948, issue of the "Austro American
14 Tribune", New York, appeared an article on page 13, columns
15 1, 2 and 3 under the heading "The Readers Write the Newspaper:
16 Henry Wallace and the Leftist Viennese Lines." The article
17 discussed Wallace as a political candidate. The following
18 is quoted from the article: "This very day the newspapers
19 brought the news that Albert Einstein officially declared
20 that he would support the candidacy of Wallace. Now Einstein
21 is neither a Communist nor an idiot. It might not be out
22 of the question for a good oskar to learn something from him."

[REDACTED]

attended a meeting of the National Council of Arts, Sciences and Professions held at Ridgely Hall, Baltimore, on May 2, 1948.

Informant advised that a leaflet was passed out at the meeting, to which was attached a form to be filled out and returned to the group, on which individuals were to designate whether they were interested in becoming active in the organization.

The national officers of this organization as set forth on the leaflet were set forth in this reference. The members at large were put in three groups: East, Mid-West and West. The name of Dr. Albert Einstein appeared in the East group.

Baltimore Memorandum to Director,
June 2, 1948.
Re: "National Council of Arts,
Sciences and Professions;
Internal Security-C."

11
12 The May 13, 1948 issue of the "New York World Telegram"
13 carried an article under the caption, "Polo Grounds Rally on
14 Palestine Labeled Red Front" with a subheading of "Einstein,
15 Sen. Thomas Urged to Withdraw by Schultz Group." This article
16 stated that a pro-Palestine rally which was to be held at the
17 Polo Grounds the following Saturday night, featuring Senator
18 Elbert D. Thomas (Dem., Utah) as a speaker and Dr. Albert Einstein
19 as sponsor, was branded a Communist front on that day by the
20 American Jewish League against Communism.

21
22 The rally, according to the article, was promoted
23 by the self-styled American Committee of Jewish Writers, Artists
24 and Scientists an "Enterprise of the Communist Party. . . designed
25 to capitalize on the legitimate yearnings of most American Jews
26 for a homeland for their disinherited brethren of Europe."

27
28 The article further stated that both Senator Thomas
29 and Dr. Einstein were urged by the league to disassociate
30 themselves from the rally, as were two other featured speakers,
31 Republican Emanuel Celler and Partley Crum, publisher of "PM".

12 In the May 7, 1948, issue of "Counterattack", a
13 weekly newsletter published by the American Business Consultants,
14 Inc., at 55 West 42nd Street, New York, New York, appeared an
15 account of the meeting and discussion, called "Salute to the
16 Jewish State in Palestine," that was to be held on May 15 at
17 the Polo Grounds in New York City.

18
19 The article stated the above event was planned by the
20 American Committee of Jewish Writers, Artists and Scientists,
21 and mentioned that Dr. Albert Einstein had let himself be roped
22 in as an honorary president of this organization. It further
23 stated that "Most of the great scientists of the world consider
24 Einstein the greatest of them all. It's a pity that he doesn't
25 recognize his lack of expertness in political questions. He
26 isn't a Communist and in fact has expressly opposed Moscow on
27 several matters...and yet he has been sucked into a number of
28 Communist fronts."

12 The Comintern organ published in Paris, France,
13 announced in its May 20, 1948 issue that Professor Einstein
14 would deliver a report on atomic energy at the meeting of the
15 International Association of Democratic Jurists scheduled for
16 August 2-5, 1948 at Prague.

A clipping from the "Arlington Daily " of May 21, 1948 indicated that Professor Einstein and ten "former Nazi research brain-trusters" held a secret meeting and watched a beam of light melt a block of steel 20 x 20 inches. It was indicated that this new and secret weapon could be operated from planes and destroy entire cities.

Colonel C. C. Blakehey of the Intelligence Division of the Army advised the Bureau that he had checked into this matter with the Research Branch of the Research and Development group who stated that such information could have no foundation in fact.

[REDACTED] to the Bureau
an analysis of [REDACTED]

In this analysis information stated that the National Committee on Atomic Information was set up early in 1946; that the literature put out by the group conformed strictly to the line of Soviet Russia on the question of the atomic bomb and energy; that the literature as a whole was one of propaganda solely.

b7C Informant stated that [REDACTED] appeared as one of the sponsors of this organization; that such names as Henry Wallace, Albert Einstein and many other names also appeared.
(page 5)

A Bureau Agent developed through a pretext telephone call and in conversation with one [REDACTED] that the Committee for the First Amendment had merged with a new committee that had originated in the East, known as a Committee of 1,000. This latter organization would be headed by Professor Harlow Shapley and the purpose of the organization was to create a drive for the complete abolition of the House Un-American Committee. In discussing the Committee of 1,000, [REDACTED] furnished a telegram which had been sent to [REDACTED] by Harlow Shapley dated January 14, 1948, which stated that the Un-American Activities Committee was creating an atmosphere of civic cowardice through its continued attacks upon the freedoms guaranteed by the First Amendment to the Constitution, and asked that [REDACTED] join with Shapley and Dr. Albert Einstein, [REDACTED] and others in launching a Committee of 1,000 which was to be strictly a non-partisan, non-political organization of which the sole purpose was to seek the abolition of the Un-American Activities Committee. This telegram was set out in detail in this reference.
(page 28)

b1, b2, b7C, D [REDACTED] telegram addressed to [REDACTED] which read as follows:

The first independent project to be undertaken by the National Arts, Sciences, and Professions Council will be a joint East-West Conference on Peace. The discussion will be lead by

67D, C

regarding the Korean-American Cultural Association, Incorporated

advised that the Korean-American Cultural Association was organized in 1938 or 1939 by Doctor Chang Soon Kim who was then residing in Los Angeles, California. The purpose of the organization was to promote Korean culture in the United States and to acquaint the American people with this culture. According to the organization was to have no political affiliations.

magazine which the Korean-American Cultural Association was planning to publish. This magazine was called the "Korean Review".

An examination of the June, 1948 issue, of Volume 1, Number 1, reflected an article entitled "The Korean-American Cultural Association, Incorporated", by Mary Bryant which article set out the executive personnel of the Korean-American Cultural Association. Among the personnel listed under Washington Headquarters was the name of Dr. Albert Einstein, Honorary Scholars Committee.

Through the cooperation of [REDACTED] certain documents relating to the proposed activities of the National Council of the Arts, Sciences and Professions were obtained. Included in this material was a report of the meeting of the Organizing Committee of the National Council of the Arts, Sciences and Professions held in Chicago on January 16, and 17, 1948. According to this report, Mr. George Pepper, chairman of the Nominating Committee, submitted three nominations for chairmen, one of whom was Dr. Albert Einstein.

Also included in the above referred-to material was a letter dated June 7, 1948, on the letterhead of the National Council of the Arts, Sciences and Professions wherein it was stated, "today we are taking a new and decisive step--the establishment of an independent and permanent cultural, political organization, The National Council of the Arts, Sciences and Professions." It was pointed out that as of the date of the letter the State Chapters of PCA were rapidly amalgamating into the State Third Party Organization and it was expected that the National PCA would follow suit at the National Founding Convention. The letter was signed by Dr. Harlow Shapley. The name of Albert Einstein appeared as a member at-large on the letterhead of the above-mentioned letter.

New York Memorandum to Director,
October 11, 1948, enclosing
photostatic copies of above-
mentioned material.

12 The June 14, 1948 issue of the New York "Post and Home News"
13 published a notice that a summary report of a meeting, attended by 40 of the
14 country's leading natural and social scientists, to recommend steps to prevent
15 world-wide catastrophe, would be made by Dr. Albert Einstein, Dr. Harlow Shapley,
16 etc. at Carnegie Hall on June 17, 1948. It was under the auspices of the
17 National Council of Arts, Sciences and Professions. It contained a notation
18 to the effect that Dr. Einstein would speak directly to the meeting from his
19 home in Princeton, New Jersey.

The New York Office forwarded to the Bureau by memorandum dated June 28, 1948, a mimeographed copy of the "Weekly Trends" prepared by the Newark and New York Divisions for the week of June 17, 1948. Under the heading "Communists Trends" dated June 18, 1948, at New York, New York, it was stated that the National Council of the Arts, Sciences and Professions held a meeting at Carnegie Hall June 17, 1948, the chairman of which was Dr. Harlow C. Shapley. The speakers were Lillian Hellman, writer; Dr. Philip Morrison, atomic scientist; J. Raymond Walsh, radio commentator; and Howard Fast, novelist. Albert Einstein addressed the meeting over the telephone from his home. The purpose of the meeting, as stated by the chairman, was the mobilization of the American people to save the peace of the world and civil liberties in the United States. The speakers stressed the two rejections by the United States Government of the Soviet offers to enter into direct negotiations aimed at an understanding between the two nations. They contended that the rejection was endangering the peace of the world and the democratic institutions of our country.

The June 18, 1948 issue of the New York "World Telegram" published an article captioned "Einstein Asks Patience on Russia." The article reported that Dr. Albert Einstein spoke directly from his home in Princeton, New Jersey to the audience in Carnegie Hall, New York City. He called for patience and understanding between this country and the Soviet Union as a step in solving the world's security problem. He blamed the United States for the competitive armament race and for refusing to accept the suggestions of the Soviet Union for direct negotiations.

The article stated that the meeting was sponsored by the National Council of Arts, Sciences and Professions," which is promoting a pro-Soviet line."

11
12
13 The reference indicated in the block below is a
14 mimeographed letter dated June 19, 1948, signed by A.
15 Einstein, Chairman of the Emergency Committee of Atomic
16 Scientists, urging aid and financial contributions for the
17 Committee. The following is quoted therefrom:

18
19 "I ask your thoughtful consideration of the
20 enclosed statement, (which was attached to the letter)
21 which presents the essentials of a policy that we believe
22 will bring about world peace rather than international
23 chaos and the destruction of civilization. The fateful
24 adjournment of the United Nations negotiations on atomic
25 energy control has ended, for the time being, our hope of
26 controlling the development of atomic weapons. Now, more
27 than ever, the immediate responsibility for insisting on a
28 peaceful solution of the world's crisis rest with thoughtful
29 citizens. If you agree with our proposals, I ask your
30 support in our efforts to impress them as strongly as
31 possible upon the American people."

32 The following is the statement mentioned above:

- 33
34
35 1. Atomic bombs can now be made cheaply and in large number.
36 They will become more destructive.
37
38 2. There is no military defense against atomic bombs,
39 and none is to be expected.
40
41 3. Other nations can rediscover our secret processes by
42 themselves.
43
44 4. Preparedness against atomic war is futile and,
45 if attempted, will ruin the structure of our social
46 order.
47
48 5. If war breaks out, atomic bombs will be used, and
49 they will surely destroy our civilization.
50
51 6. There is no solution to this problem except inter-
52 national control of atomic energy and the elimination of war.

advised that on June 27-28, 1947, Albert Einstein attended a meeting held by the Emergency Committee of Atomic Scientists. (place not stated) (page 19)

A press release issued by the Federation of American Scientists on July 16, 1947 stated that Professor Albert Einstein on that day joined with the Administrative Committee of the Federation of American Scientists in an atomic anniversary statement warning against defeatism and calling for the fullest use of the united nations and its agencies.

(source if press release not given)
(page 22)

According to this press release, Professor Einstein, a member of the Federation of American Scientists, was also chairman of the Emergency Committee of Atomic Scientists.

arrangements were made by the Joint Anti-Fascist Refugee Committee to have approximately 100 persons in the scientific and educational field on the National Reception Committee for Madame Irene Joliot-Curie which would be headed by Professor Albert Einstein of Princeton University and Dr. Harlow Shapley of Harvard University as co-chairmen.

Informant advised that Irene Joliot-Curie, French nuclear physicist, would arrive in the United States about March 18, 1948, as a guest of the Joint Anti-Fascist Refugee Committee (JAFRC) for the purpose of assisting that organization in raising funds.

Informant advised that on March 19, 1948, following Madame Curie's detention by Immigration Authorities at Ellis Island, the JAFRC sent telegrams to Attorney General Tom Clark protesting Madame Curie's detention. According to the informant, Professor Albert Einstein had also sent a similar telegram and was urging all scientists on the National Reception Committee to do likewise.

On March 19, 1948, the same informant advised that Dr. Edward Barsky had contacted Professor Albert Einstein at Princeton, New Jersey on that date and had made an appointment for Madame Curie to visit Einstein on the morning of March 20, 1948.

The March 21, 1948 issue of the "New York Times" carried an article date-lined "Princeton, New Jersey," which reflected that Madame Irene Joliot-Curie was the guest of Dr. Albert Einstein at his home at 112 Mercer Street that morning. The article stated that the two presumably discussed details of Madame Curie's proposed speaking tour under the auspices of the JAFRC, of which both were members.

The magazine section of the June 25, 1948 issue of the "Morning Freiheit", Communist daily Jewish language newspaper, carried a picture of Madame Curie, Albert Einstein and Dr. Edward Barsky, the accompanying article reflected that Curie and Dr. Barsky visited Einstein at Princeton, New Jersey.

13 The April 11, 1948 issue of "P. M." carried an
14 article reflecting the results of an interview with
15 Madame Curie. This article stated in part that she was a
16 frail, worn-looking woman of 50 with short gray hair combed
17 back somewhat in the manner of Albert Einstein.

~~SECRET~~

The Bureau received on October 11, 1948, a Restricted American Embassy Report dated September 9, 1948, Warsaw, Poland, entitled "Censorship, War-Mongering and False Reporting in Poland". On pages 21 and 22 of this report under the subheading "Refutation of False Reports on Professor Einstein's Message" the following is quoted: "Owing to the fact that some American newspapers have published false reports to the effect that Professor Einstein's message to the Congress of Intellectuals has been twisted, Jerzy Berejsza, Secretary General of the Congress sent the following explanation to PAP. (X) *an*

"(1) On August 26, Professor Julian Huxley, Chairman of the Congress, read the original of Professor Einstein's letter of July 6, greeting the Congress. The text of this letter has been published. *an*

"(2) By a decision of the Presidium, Professor Einstein's message, as well as a number of other messages, (for instance Lombardo Toledano's) were not read to the Congress but were attached to the minutes of the Congress on the understanding that they will be published in the Congress Book. *an*

"These facts are clear and obvious and they can be checked. An explanation in this connection has been sent to Professor Einstein in writing. It is not surprising that the Yellow Press in America wants to minimize the importance of the Wroclaw Congress by publishing falsehoods." "Source: Robotnik, September 1, 1948." *an*

b7C,
D

The Bulletin of Atomic Scientists, Volume 4, Number 10, for 1948, which was published by The Atomic Scientists of Chicago, 1126 East 59th Street, Chicago, Illinois, contained on page 295 and 299 an article entitled "A Message to the World Congress of Intellectuals" by Einstein. This article set out the text of the message of Albert Einstein to the Congress which was held in Breslaw, Poland, in August of 1948. Einstein in the message recommended world government. The article stated that Einstein was publishing a full text of the message to the Congress because the message attributed to him and published in Poland was entirely unlike the message which he had sent.

[REDACTED] made available a news item from the Polish newspaper "Kurier Codzienny" (Daily Courier), issued on August 18, 1948. This article reported on the American delegation enroute to Poland to participate in the World Congress of Intellectuals in Wroclaw, Poland. The delegation was composed of two groups. One group represented the "One World Award Committee", an organization of American Progressive Intellectuals. Otto Nathan, Economist and friend of Professor Einstein, was a member of this group and was to deliver an address at the Congress. (No mention was made of the other group.)

Translation enclosed with
9/2/48 letter from the
Legal Attache, London, England.

The October, 1948 issue of the "Bulletin of the Atomic Scientists" contained an article captioned "A Message to the World Congress of Intellectuals" by Albert Einstein. It consisted of Dr. Einstein's message to the Congress which met in Breslau, Poland, during August, 1948. The article contained a strong recommendation for world government.

It was preceded by a foreward explaining that Dr. Einstein released this message in Princeton on August 28 after publication of a completely dissimilar message in Poland, which was shortened and omitted his recommendations for a world government.

The Bulletin is described in summary reference 100-35064-31 located elsewhere in this memorandum.

The August 30, 1948, issue of the New York "Times", contained an article entitled "Einstein Clears Up 'Message' Mystery". The article stated that Dr. Albert Einstein charged that the Polish version of his message to the World Congress of Intellectuals at Breslau, had been changed without his authorization or his knowledge. The article quoted both the actual message sent to the Congress by Einstein and a text which had been presented to Congress as his message, and Einstein's explanation of what caused the mixup. Another article in this same issue entitled "Nathan Withheld Message," explained that Dr. Otto Nathan had carried a message from Einstein to the Congress. It stated that Nathan did not give an explanation as to why he did not present Professor Einstein's message.

The August 21, 1948, issue of the "New York Herald Tribune", published an article entitled "Einstein Flea To Intellectual Harley Hot Road." The article reported that Dr. Otto Nathan of New York, who carried a message from Professor Albert Einstein to the World Congress of Intellectuals at Wroclaw declined to say why he decided not to present the message to the Congress. The article continued by presenting the difference between the Polish version of Einstein's message and the actual text that Nathan was to have presented to the Congress.

The Bureau received an OGI report from Chief of Naval Intelligence dated August 31, 1948, entitled "Subversive Trends of Current Interest". On page 1 of this report appeared the heading "'Intellectuals' Named Leftist Peace Group". Under this heading it was stated that the World Congress of Intellectuals meeting in Breslau, Poland, had announced the establishment of an "International Committee in **Defense** of Peace" in Paris as part of a world wide campaign to avert a new war. (Date of meeting not indicated)

At the end of this article appeared the following comments: "It is interesting to note that whereas Henry Wallace addressed the Breslau Congress through the medium of a phonograph record prepared in advance, Albert Einstein's message was withheld by his representative, Dr. Otto Nathan, who declined to state why he did not read it."

This report was received from OGI on September 7,

September 3, 1948 issue of the "Dziennik Zachodni" (Western Daily), a Polish newspaper, published an article entitled "The Brodow Congress", a statement by its Secretary General. The statement was an answer to the American Press charge that Professor Einstein's report to the Congress of Intellectuals at Brodow was misrepresented by the Congress.

Translation enclosed with
letter to the Director from
the Legal Attache, London.
England dated September 11, 1948.

Newark letter dated September 8, 1948, pointed out that a thorough search of all [redacted] references in Newark files failed to develop any information regarding a contact of Albert Einstein at Princeton, New Jersey, which contact was believed to be [redacted]

Discreet contact with sources at Princeton, New Jersey, failed to develop any information regarding one [redacted] known to be a contact of Professor Einstein. [redacted]

Realizing that Professor Einstein's contacts were numerous and international and that no investigation had been conducted upon Albert Einstein's activities which would furnish a basis for determining his contacts, the Newark Office set forth information obtained at Princeton during the course of other investigations. [redacted]

Helen Dukas was the housekeeper and secretary of Professor Albert Einstein. She was naturalized on October 1, 1940, at Trenton, New Jersey, at the same time as Professor Einstein. Dukas resided with Einstein at his home, 112 Mercer Street, Princeton, New Jersey.

[REDACTED]

[REDACTED] furnished to the Bureau copies of a number of documents which had reportedly been sent out by the "American Council for a Democratic Greece", and which bore the Red Cross emblem and the words "Red Cross".

Included in these documents was a form letter which appeared to have served as a cover letter from the American Council for a Democratic Greece, 152 West 42nd Street, New York City, to prospective petition signers and financial contributors. This letter was dated September 24, 1948. The letterhead on which this form letter appeared bore the phraseology, "A petition to the International Red Cross to save lives in Greece", and the imitation Red Cross emblem in the upper left hand corner of the letterhead. A little to the right of this phraseology and emblem, appeared the drawing of a man holding a small child in his arms. In the right half of the letterhead, appeared the National Petitioners, whose names included Albert Einstein and nine other individuals. The letter was signed by Rev. John W. Darr, Jr.

[REDACTED]
[REDACTED] furnished to the Bureau a copy of the news letter of the "Association of Internes and Medical Students -- Committee on Academic Freedom and Civil Liberties" signed by Marvin Hirsch, Chairman. The following is quoted from this news letter:

"The 1947 national Convention of AIMS established a national Committee on Academic Freedom, Civil Liberties and Medical Research. It is the intent of this committee to tie up national and charter activities on these questions and we will publish a news letter for that purpose . . .

"The case of Dr. Edward Condon, Director of the National Bureau of Standards is best known: Dr. Harlow Shapley dean of our Astronomers and past President of the A.A.A.S. also has been mistreated and insulted especially by Representative Rankin. The Presidents of the New England colleges have protested the latter action. The American Committee of Atomic Scientists, headed by Albert Einstein, had condemned the attack on Condon." (News letter undated)

21 In September or October, 1948, a highly confidential
22 source furnished to the Bureau a list of names, apparently
23 maintained by Len Goldsmith, Civil Rights Congress National
24 Director. The name of Albert Einstein, 112 Mercer Street,
25 Princeton 41162 appeared on this list.

13 The "Morning Freiheit", a Yiddish Communist
14 Daily, on page 1, column 5, of the November 11, 1948,
15 issue contained an article reporting on the Israel
16 Independence Banquet held at the Biltmore Hotel, (date
17 not given) in New York City. The Banquet was organized
18 by the Committee of Jewish Writers, Artists and Scientists,
19 to express their thankfulness and recognition to the Soviet
20 Union for the aid and support they gave to the State of
21 Israel.

22
23 Professor Albert Einstein sent his congratula-
24 tions to the Banquet.

25
26 The Banquet was dedicated to the Ambassadors
27 from Poland and Czechoslovakia, Dr. Joseph Winiewicz
28 and Dr. Vladimir Autrata, respectively.

29
30 Translation enclosed with
31 11/24/48 memo from SAC
32 New York.

12 In the May 26, 1949 issue of the "New York Times" appeared an
13 article on page 5, captioned "Bohm on Loyalty Group." The article reported
14 statements made by faculty members of Princeton University in connection
15 with the investigation of David Bohm by the House Committee on Un-American
16 Activities. It also cited that on October 18, 1948, the Federation of
17 American Scientists, Washington, announced that Dr. Bohm had been appointed
18 a member of its newly-formed Scientists Committee on Loyalty Problems.
19 Fellow members included Dr. Albert Einstein and thirteen other Eastern
20 scientists.

The October 18, 1948 issue of the "Newark Evening News" carried an article under the caption "Defends U. S. Scientist" with the subheading of "Federation Names Committee to Combat 'Vicious Type of Character Assassination'" which stated that the Federation of American Scientists, representing more than 4,000 members on that day announced the creation of a scientists committee on loyalty problems to combat "the vicious types of character assassinations" levied at Dr. Edward U. Condon, Director of the National Bureau of Standards.

The article stated that Professor Henry De Wolf Smyth of Princeton University, acting as spokesman for the fifteen-man committee, said that the Federation backed a three-fold program which included provisions for competent legal counsel to individual scientists summoned to Congressional hearings, standardization of legal procedure involved and eliminations of "blacklisting" a scientist from general employment.

The article continued that to pursue these ends, the Federation had nominated W. A. Higgenbotham of Brookhaven National Laboratory as chairman of the group, which included Dr. Albert Einstein, Dr. Luther P. Eisenhart, dean emeritus of Princeton's Graduate school and others.

The October 19, 1948 issue of the "Trenton Times" in an article entitled "Loyalty Clearance Problems Taken Up by Scientists" also contained the above information.

15 addressed a Sunday forum of the Socialist Workers Party
16 of the St. Paul Branch, at 420 Cedar Avenue, St. Paul,
17 Minnesota (date not stated). At this forum she spoke on
18 the subject "Socialism versus Barbarianism." Informant
19 stated that she devoted much time to an outline of an
20 article by Albert Einstein in the October 28, "Minneapolis
21 Tribune." This article was concerned with the Atomic Bomb.
22 [REDACTED] was very critical of Einstein, pointing out that
23 although he was a great scientist, he was a physicist. She
24 stated: "What does he ask for? As a result he wants a
25 world government. Now of course, that is what we want.
26 He wants a socialist United States of the World. We
27 believe that it will be impossible to have any kind of a
28 world government unless first there is a change in the
29 Economic system and Socialism dominates the World."

30 St. Paul report, August 19, 1949.

On March 21, 1948, an article appeared in the "Daily Worker" which stated in part that Mrs. Irene Joliot-Curie at a press conference in the offices of the Joint Anti-Fascist Refugee Committee which sponsored her trip to America, stated that among other things, she would buy equipment for her Paris laboratory and would see Dr. Albert Einstein. It was stated further that in Paris, her husband, Frederick, said Dr. Einstein was one of those who invited her to visit the United States; further that her husband was a Communist and head of France's Atomic Energy Commission.

12 In the November 1948 issue of the "Forum Und Tribune"
13 an American monthly, published in New York City, appeared an
14 article on page 2, columns 3 and 4, entitled, "Hellmer or Einstein?".
15 The article pertained to a column in "Ausbau" written by Kurt
16 Hellmer. Hellmer was against all foreign language papers and
17 against "foreigners" if they supported the Wallace Party. It
18 stated that Hellmer criticized this paper (Foreign Und Tribune).
19 The article went on to say that "we are against Hellmer's attempt
20 at intrusion and are in favor of the upright attitude of Thomas
21 Mann and Albert Einstein, opposed to agitation against foreigners,
22 Reds, and Jews and in favor of Henry Wallace.

12 The New York Times of 11/1/48 carried an article
13 entitled "Ballach Cited by Teacher's Union."
14

15 This article stated, in part, that the Teacher's
16 Union had reported on the previous day that it had received
17 hundreds of telegrams and letters from educators, parents,
18 authors, artists and trade unionists commending the statement
19 "in defense of the Constitution and the Bill of Rights" made
20 by Samuel Ballach, former president of the Teacher's Union,
21 before a Congressional sub-committee on education and labor.
22

23 The article further stated that there named in the
24 union as having written to his support included Albert Einstein
25 and ten other educators.

According to [REDACTED] Einstein made the following statement:

"I came to this country because I believed that America was the land of liberty. When I came here it was, I found the liberty I was seeking, but in recent months I have seen this country moving farther and farther away from those liberties until today it reminds me far more of the Prussia I left than the America to which I came."

b7C, E

[REDACTED]

as set forth in Philadelphia, letter to the Bureau dated September 16, 1948, in the case entitled "Progressive Citizens of America, Internal Security - C" revealed that a copy of the "Report of the Meeting of the Organizing Committee of the National Council of the Arts, Sciences and Professions held in Chicago at the Frederick Wilson room, 84 East Randolph, January 16-17, 1948" was obtained. According to this report, there were forty-seven delegates from thirteen chapters and eleven states present at the opening session on January 16, 1948. In addition, there were nine state PCA Directors, six PCA Board Members, and eighteen visitors.

The first order of business was the election of committees. George Pepper was elected Chairman of the Nominating Committee.

[redacted] advised that the ASP had sponsored a meeting at Carnegie Hall on June 17, 1948, which was attended by 3,000 people. All speakers, according to [redacted] stressed the two rejections by the United States Government of the Soviet offer to enter into direct negotiations aimed to bring about an understanding between the two nations on the matters which were endangering the peace of the World and the Democratic institutions of our country.

According to informant, Professor Albert Einstein addressed the meeting over the telephone from his home at Princeton, New Jersey. He declared that "no government can disregard the will of its people. Not even dictatorial governments. How is it possible that our government disregards the will of our people." Einstein criticized the United States Government for its refusal to accept the suggestion of the USSR for direct negotiations. He emphasized that the refusal of negotiations of the two worlds greatest powers was endangering the peace of the world. He concluded that "Any new step to militarization of the country takes us further away from peace."

10
11
12 The following information was taken from a memorandum
13 dated September 17, 1948, "To Associations" prepared by the
14 Federation of American Scientists:

15
16 "SCLP. In anticipation of the present situation
17 and out of concern about less publicized clearance problems,
18 the Federation has set up the Scientists' Committee on Loyalty
19 Problems. The functions and history of this committee are
20 described in the Prospectus and Interim Report, respectively,
21 copies of which were mailed to the associations recently, and
22 can be obtained from the address below. The Committee is now
23 complete and has the following members: W.A. Higinbotham,
24 Chairman, A.S. Wightman, Secretary, R.J. Britten, R.R. Bush,
25 A. Einstein, S.A. Goudsmit, D.R. Hamilton, H.S. Livingston,
26 S. Mudd, H.D. Smyth, Thomas L. Spitzer, C. Veblen, and I. Wolff.
27 The first meeting of the committee will be held in Princeton
28 on September 25. Letters have been sent to one hundred and
29 fifty leading scientists throughout the country, inviting them
30 to become sponsors of the Committee. In connection with the
31 present hearings, several members of the committee are working
32 closely with FAS Office. A number of legal contracts have
33 been made and not only are these proving useful now in Washing-
34 ton but it is expected that they will be helpful for consultations
35 on individual clearance problems. Attempts to raise money are
36 being made and educational activities are being planned. The
37 member associations can be very helpful to the Committee
38 (1) by sending its suggestions and reports on topics suitable
39 for educational work, and (2) by supplying information on
40 individuals who may need help in clearing problems. We must
41 know about problems early to give effective help. Address:
42 Scientists' Committee on Loyalty Problems, 14 Battle Pass,
43 Princeton, New Jersey." (page 17)

44
45 *WAB2* On April 29, 1949, [redacted] who had been closely associated
46 with FAS since its inception, advised that the Scientists'
47 Committee on Loyalty Problems of FAS was under the leadership of
48 the more conservative members of the Committee, namely H.D.
49 Smyth, I. Spitzer, and William A. Higinbotham, as well as
50 S.A. Goudsmit, whom T-1 described as being one of the best
51 informed scientists on security matters. T-1 said that the
52 more "left-wing members" such as Einstein were disinterested
53 and did not count as far as the work of the Committee was con-
54 cerned. (page 20)

they should tell the Princeton group that the "Arts, Sciences and Professions Council" was soliciting briefs to be filed in the case of the "Hollywood Ten", which would be heard in Washington approximately January 12, 1949. The Arts, Sciences and Professions Council was soliciting these briefs because an attack on artists such as the Hollywood group, opened the door to further attacks on educators. [redacted] stated that among the persons on this committee who could be contacted and who were reliable were [redacted] and [redacted] Albert Einstein and [redacted]

"The Einstein telegram states that Davis had made a sacrifice for the benefit of humanity. He has made himself a man without a country (DP) to fight for the rights of those who are witnesses to the low moral level of our time.

"If a supranational organization should plan to solve the problem of international security, it would have to have sufficient means of power. Only the unflinching will of the peoples can liberate the forces which can effect a clean break with spent traditions of politics."

15 On December 13, 1948, the New York "World Telegram"
16 contained an article entitled, "Reds See Garden Jammed Tonight
17 with State Department Publicity Build-Up." It reported that
18 a rally was being held that night at Madison Square Garden to
19 climax the tour of the Very Reverend Hewlett Johnson, "Red
20 Dean" of Canterbury and a member of the Governing Board of the
21 Communist London "Daily Worker."

22
23 The Dean was invited to tour this country under the
24 auspices of the National Council of American-Soviet Friendship.
25 The State Department refused to issue the Dean a visa because
26 the sponsor was deemed subversive. At the same time, the
27 State Department made clear there was no objection to Dr.
28 Johnson himself provided he came properly chaperoned. The Dean
29 was issued a visa when a "Committee of Welcome" was formed
30 to sponsor his tour. Although termed Communist by the govern-
31 ment, the National Council of American-Soviet Friendship,
32 in promoting the above-mentioned pro-Russia rally, had been
33 using such names as Albert Einstein, Senators Arthur Capper,
34 Albert D. Thomas and Claude Pepper, Helen Keller, Maxwell
35 Stuart, and others.

On September 15, 1949 Edith Rosenberg, Executive Secretary, of the American Council for a Democratic Greece Inc., appeared at the office of Assistant United States Attorney Thomas F. Murphy, Southern District of New York at which time Miss Rosenberg accepted service of the subpoena duces tecum, calling for Miss Rosenberg to produce the original receipt books, cash receipt books and cash disbursement books for the American Council for a Democratic Greece, Inc., for the year 1948.

Included in the documents which were introduced in evidence before the Grand Jury on the same date by Rosenberg was [REDACTED]

13 The December 19, 1948 issue of "France Avenir",
14 published in New York City, contained an article on page 8
15 entitled "The 'Citizen of the World' at Velodrome d'Hiver."
16 This article reported that Mr. Garry Davis, "first citizen
17 of the world," spoke last week at the Velodrome d'Hiver
18 (Winter Cycle Racing Track) in Paris, in a big demonstration
19 organized under the eminent patronage of Andre Gide and
20 Einstein.

13 The December 31, 1948 issue of the "Daily Worker"
14 carried an article under the caption "5000 Rallyes to Ask End
15 to Trial of 'Twelve'" which stated that 5000 house, shop and
16 block meetings were scheduled to be held in New York's five
17 boroughs starting January 8th to call on Attorney General Tom
18 Clark to dismiss the indictment against the 12 Communist leaders.

19 According to the article, the meetings, organized under
20 the auspices of the Civil Rights Congress, were to elect delegates
21 to the Freedom Crusade, in Washington, D.C., January 18th, the
22 day after the trial of the Communist leaders opened in the
23 Federal Court in New York City.

24 The article stated that the house, shop and block
25 rallies, according to the spokesman for the Civil Rights Congress,
26 would call for: ending prosecution of the Communists; abolition
27 of the Un-American Committee; passage by Congress of the Anti-
28 Lynching Bill; adoption of fair employment practices legislation
29 and the repeal of the Taft-Hartley Act.

30 According to the article, sponsors for the Freedom
31 Crusade to Washington included Albert Einstein.
